- Establish a charitable remainder annuity trust, and make an irrevocable transfer of cash, securities or other appreciated property.
- The trust may last for the life of the beneficiary or for a term of years (up to 20 years).
- The transferred assets are invested or sold by the trustee.
- Select a trustee: You or The UCLA Foundation can serve as trustee, or you may choose your own trustee.
- The regular, taxable payments you or your beneficiaries receive are fixed and do not fluctuate with the market value of the trust's assets.
- Upon the termination of the trust, the remainder is distributed to The UCLA Foundation for the philanthropic purposes you have designated.
